

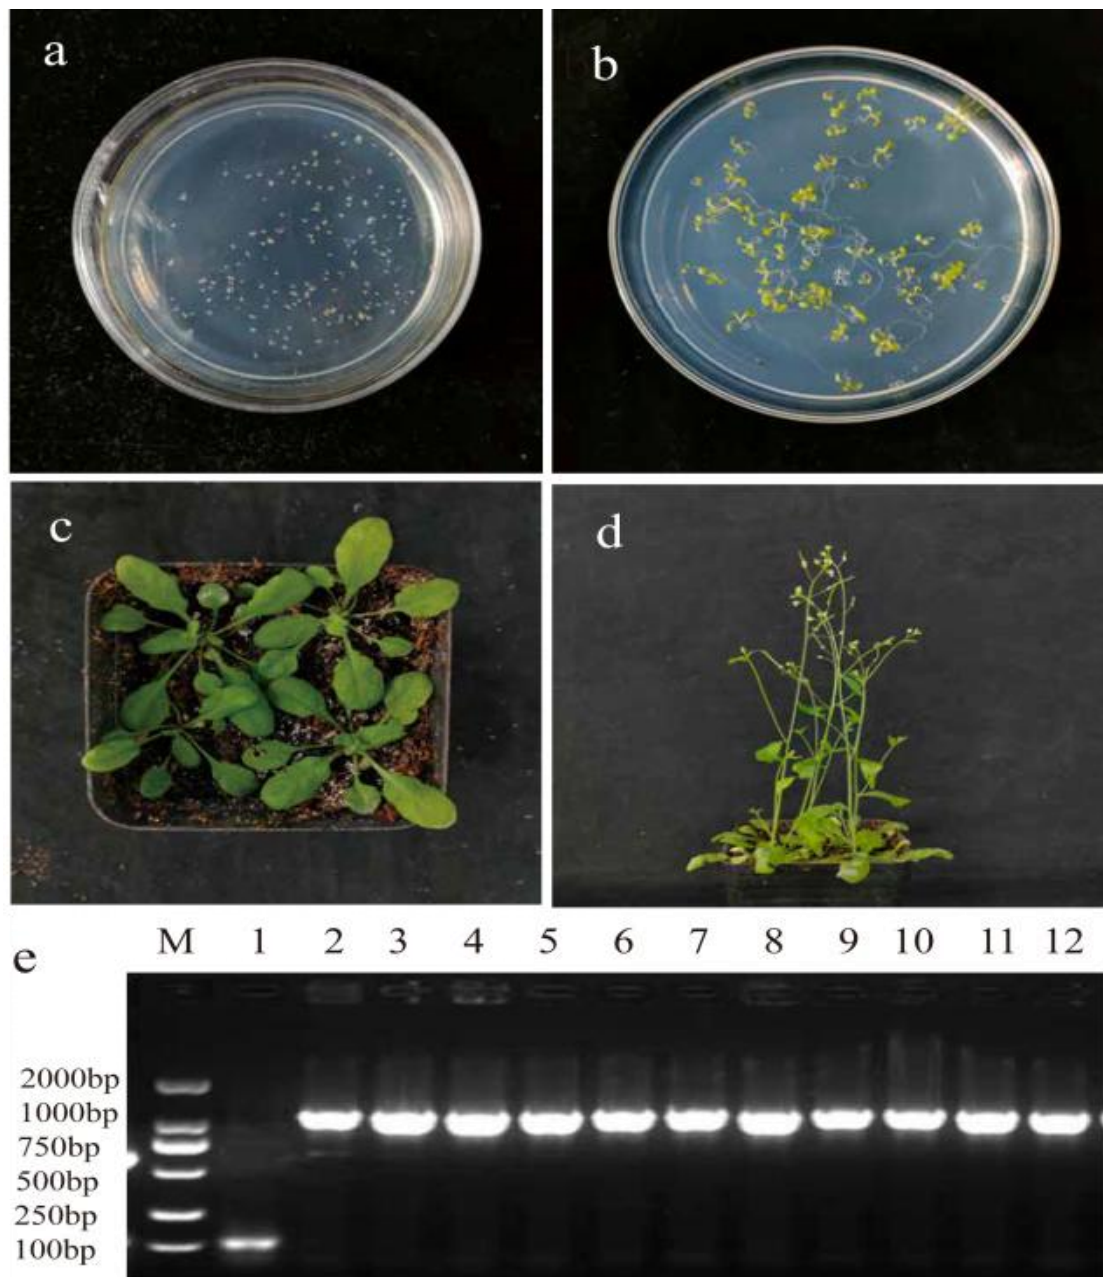

**Figure S3 Screening and validation of transgenic *Arabidopsis* lines overexpressing *CsCKX5* driven by pCsLhc11 promoter.** (a) Kana-resistance selection of transgenic *Arabidopsis* seeds; (b) One-week-old positive transgenic *Arabidopsis* seedlings; (c) Three-week-old positive transgenic *Arabidopsis* seedlings; (d) Transgenic *Arabidopsis* plants at the flowering stage; (e) PCR verification of positive transgenic *Arabidopsis* lines. M: marker. Different numbers represent different lines.
