

Table.3 Traffic congestion indicators

Features	Type	Description
FlightsSameHour	Numerical	The ratio of ground traffic volume during the landing/off-block period to the flight volume during peak hours
FlightsWithin5Min	Numerical	The number of arriving/off-blocking flights within 5 minutes before and after the landing/off-block time of the flight
FlightsWithin10Min	Numerical	The number of arriving/off-blocking flights within 10 minutes before and after the landing/off-block time of the flight
FlightsWithin15Min	Numerical	The number of arriving/off-blocking flights within 15 minutes before and after the landing/off-block time of the flight
TotalWithin5Min	Numerical	The number of arriving and off-block flights within 5 minutes before and after the landing or off-block time of the flight
TotalWithin10Min	Numerical	The number of arriving and off-block flights within 10 minutes before and after the landing or off-block time of the flight
TotalWithin15Min	Numerical	The number of arriving and off-block flights within 15 minutes before and after the landing or off-block time of the flight
