

Table S2 Question and answer list of discriminative sensory test

discriminative sensory test
Evaluator ID:_____ Evaluator name:_____ Date:_____
<p>Test Instructions:</p> <p>Before you are three numbered samples: two are identical, while the third is distinct. Proceed to smell the samples in order from left to right and record the number of the sample that differs from the others in the designated space below. If uncertainty arises, provide your best estimate. You may perform the sniffing process as many times as necessary, even if no definitive answer is reached initially. Thank you!</p>
The number of the sample that differs from the other two is:_____
