

**Supplemental Figure S1. Pearson correlation coefficient (PCC) analysis of gene expression data from the three replicate samples from each stage in bitter kernels (“Aohanqi-39” (AO, AS1~AS6)) and sweet kernels (“Youyi” (YY, YS1~YS6)). a. Pearson correlation coefficient (PCC) among the three biological replicates of six developmental stages in AO (AS1-AS6). b. PCC among the three biological replicates of six developmental stages in YY (YS1-YS6).**
