

Figure S2. The Effect of *GbNAC2* overexpression on seed germination in transgenic *Arabidopsis*. **(a)** The germination status of *Arabidopsis* seeds under treatment with different concentrations of NaCl. Statistics of germination rate under treatment with 100mM **(b)** and 200mM **(c)** NaCl. **Data are means \pm SD ($n = 3$).** * $P < 0.05$, ** $P < 0.01$.
