

Fig. S1 Comparison diagram of predicted structures of ABI3 proteins.

(a) 3D structure prediction of the ABI3 (AT3G24650.1) protein in *Arabidopsis thaliana*, where the B3 domain is the dark blue structure within the green box. (b) 3D structure prediction of the PtABI3 protein in *P. tabuliformis*, where the B3 domain is the dark blue structure within the green box.
