

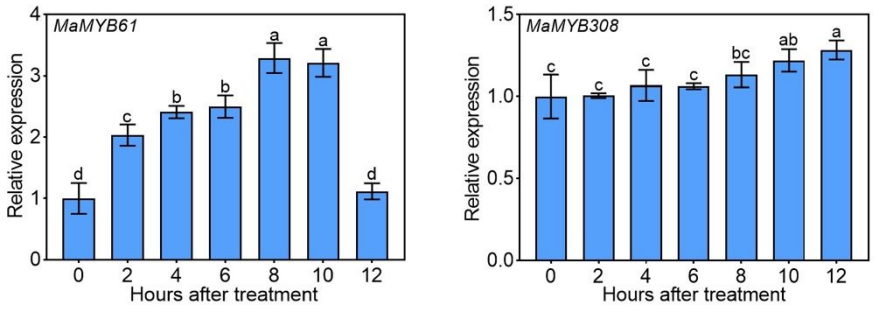

Figure S2. Dynamic expression patterns of *MaMYB61* and *MaMYB308* under Al^{3+} stress. RT-qPCR analysis of *MaMYB61* and *MaMYB308* transcript levels in mulberry roots treated with 0.8 mmol·L^{-1} $AlCl_3$ at indicated time points. Data are presented as mean ± SD (n = 3 biological replicates). Different letters indicate significant differences at $p < 0.05$.
