

Supplemental figure 5

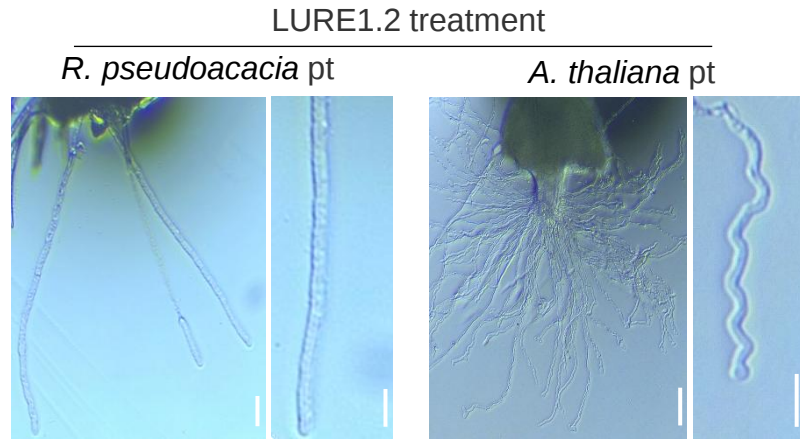

Fig. S5 *R. pseudoacacia* pollen tubes do not respond to AtLURE1.2.

Growth responses of *R. pseudoacacia* (left) and *A. thaliana* (right) pollen tubes (pt) after 1 h of treatment with 1 μM AtLURE1.2 uniformly applied in the medium. *R. pseudoacacia* pollen tubes showed no detectable change in growth direction, whereas *A. thaliana* pollen tubes exhibited marked changes in growth orientation. Scale bars, 10 μm.
