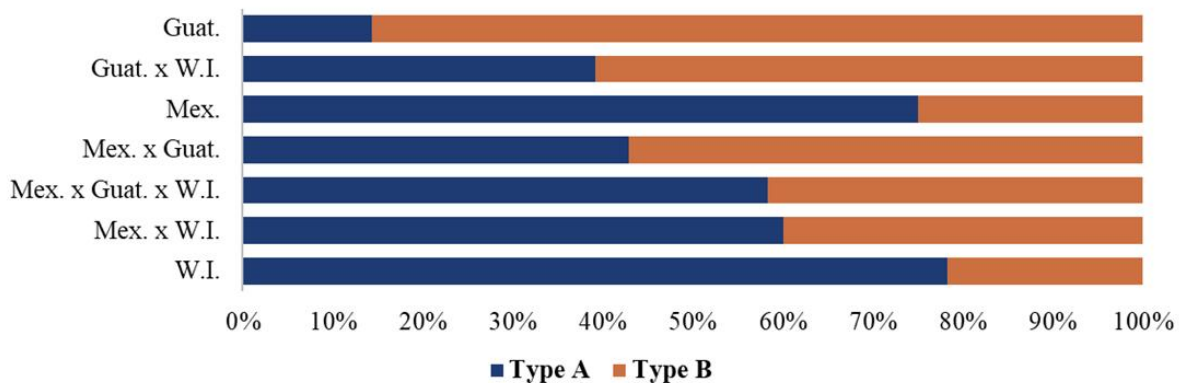

Figure S2. Proportion of avocado botanical races and flowering type distribution in the current germplasm collection. (A) Percentage distribution of different avocado races, including Guatemalan (Guat.), Mexican (Mex.), and West Indian (W.I.), as well as their hybrids: Mex \times W.I., Mex \times Guat., Guat. \times W.I. and Mex \times Guat. \times W.I. (B) Distribution of flowering-type phenotypes across these groups.
