

Supplementary Figure S1. Flow cytometry histograms of parental lines and hybrid progeny. Each histogram shows DNA content distribution of a representative individual from each line. (a) DGDJ (triploid, 3x). (b) XGYJ (diploid, 2x). (c) HNYJ (diploid, 2x). (d) X1701 (tetraploid, 4x). (e) X1702 (tetraploid, 4x). (f) X1931 (tetraploid, 4x). (g) X1932 (tetraploid, 4x).
