

**Supplementary Table S1.** The number of days that data was collected for Lobo and Zeon for each location and year. Data includes turfgrass quality, green leaf index, normalized difference vegetation index (NDVI), and percent green cover during drought, as well as turfgrass quality during recovery. J. Springs = Jackson Springs.

Location	Turfgrass quality			Green leaf index			NDVI			Percent green cover			Recovery		
	2021	2022	2023	2021	2022	2023	2021	2022	2023	2021	2022	2023	2021	2022	2023
