

Figure S5 Heatmap depicting the distribution of relatively abundant epiphytic and endophytic fungal operational taxonomic units (OTUs, > 0.2% of total fungal reads) in different forest sites. The color of each heat map cell indicates the relative abundance of the corresponding fungal OTUs. BB, Bubeng; NG, Nonggang; NBH, Nabanhe; DHS, Dinghushan; ALS, Ailaoshan; JLS, Jiulianshan; MLun, Mulun; GTS, Gutianshan; LS, Lushan; TTS, Tiantongshan; SNJ, Shennongjia; JGS, Jigongshan; BTM, Baotianman; HGS, Huangguanshan; TYS, Taiyueshan; DLS, Donglingshan; CBS, Changbaishan; ML, Muling; MES, Maoershan; FL, Fenglin; MH, Mohe.
