

Table S2. Information of PDS gene family members in *C. sinense*

Gene name	CDS	Chromosomal location	No. of exons	Protein length. (aa)	Molecular weight	Protein isoelectric point	Putative subcellular localization
Mol007332	1749	chr07:95792444:95814693	13	583	65249.48	7.51	Chloroplast
