

Supplemental Figure 2 The water content and RNA integrity number (RIN) of different varieties.

(a) The moisture content of twenty wheat varieties. CK_MC indicates the moisture content of seeds before CDT; CDT_MC indicates the moisture content of seeds after CDT for 12 days. (b) The RIN of Zhengmai 366 and Aikang 58 before and after controlled deterioration treatment (CDT) for 12 days. **: $P < 0.01$, one-way ANOVA with Tukey's test.
