

Supplemental Figure S3. TFs involved in embryo morphogenesis and development. (a-c) Expression patterns of five *STM* genes (a), two *WOX11* genes (b), and twelve *TCP* genes (c). (d) Expression patterns of heart and cotyledon embryo-enriched TFs. (e-j) Expression patterns of six *ANT* genes (e), four *HSF* genes (f), *GLYMA.07G083500* (g), *GLYMA.08G056700* (h), *GLYMA.06G010200* (i), and four *bHLH* genes (j).
