

Figure S12. RT-qPCR analysis of *BnLEC1* expression in 25 DAP seeds of *BnSnRK2;2*, *BnSnRK2;2T177A* and *BnSnRK2;2T177A* overexpression transgenic *Brassica napus*. Three biological replicates were performed, and means \pm SE are shown. WT, wild type; CK, the null transgenic lines; OSW6/9/13, *BnSnRK2;2* transgenic lines; OSA5/11/18, *BnSnRK2;2T177A* transgenic lines; OSD4/9/12, *BnSnRK2;2T177D* transgenic lines.
