

Figure S6. Identification of putative T₀ progeny of *TaDOF4.7-B-OE* transgenic lines in Fielder by amplification of transgenic-specific PCR product (A) and RT-qPCR analysis (B). F, Fielder. PC, PC186 vector. Values in this figure were means \pm SE from at least three independent experiments. Asterisks indicate significant differences (* P < 0.05, ** P < 0.01, * P < 0.001) based on Tukey's multiple comparison tests.**
