

A

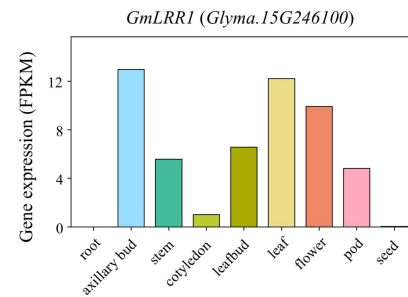

B

C

D

Supplementary Fig. S2 Tissue-specific expression patterns of candidate genes. Expression patterns of (a) D1 (Glyma.01G214600), (b) D2 (Glyma.11G027400), (c) GmATPAF1 (Glyma.12G114600), and (d) GmLRR1 (Glyma.15G246100) across different soybean tissues. Gene expression levels are presented as FPKM.
