

Supplementary Table 1: Keyword Clustering Information

Cluster ID	Size	Silhouette	Mean (Year)	Label (LSI)
#11 traditional medicine	7	0.996	2014	traditional medicine; anti-pathogenic effect; disc diffusion assay; minimum inhibitory concentration; minimum bactericidal concentration
#10 shoot tips	13	0.964	2011	cryopreservation; recalcitrant seeds; embryonic axes; shoot tips
#9 baccaurea courtallensis	17	0.979	2013	microhabitat changes; high-temperature stress; seedling establishment; rainforest fragmentation; desiccation tolerance
#8 au nps	19	0.975	2020	baccaurea ramiflora lour; catalytic activity; nabh4 reduction; fluorescence activity; breast cancer
#7 camera trap	21	0.966	2021	community protection; biocultural heritage; inhambane province; camera trap; baccaurea ramiflora
#6 philippines	22	0.941	2012	teratogenicity potential; parameria laevigata; ficus septica; aglaia loheri; antiangiogenic agent
#5 nar	22	0.924	2015	tensile strength; root topology; tensile strain; root diameter; root anatomy
#4 sikkim himalaya	39	0.955	2011	total carotene; beta carotene; edible plants; sikkim himalaya
#3 phytochemicals	42	0.906	2014	phyllanthus acidus; alpha-glucosidase inhibitory activity; barringtonia racemosa; antioxidant activity; total phenolic content
#2 burmese grape	42	0.987	2018	burmese grape; response surface methodology; energy storage; economic analysis; exergy analysis
#1 baccaurea angulata	44	0.838	2014	total carotene contents; linoleic acid peroxidation; total flavonoids contents; free radical scavenging activities; total phenolic contents
#0 baccaurea ramiflora	49	0.957	2018	baccaurea ramiflora; cov-2 m-pro; bergenia ciliata; free radicals; nitric oxide
