

**Figure S2. RT-qPCR reveals expression changes of *SIMETS1*, *CBF1*, *COR47* in WT, *not*, and *sit* under normal condition.** A-C display the relative expression of *SIMETS1* (A), *CBF1* (B), and *COR47* (C). *SIEfa* was the internal reference. At least three replicate pools were included, with each pool containing 9-10 plants.
