

Supplementary Table S2 Predicted genes associated with chloroplast development in the candidate region

Gene ID	Homologous genes in <i>Arabidopsis thaliana</i>	annotation
BolC08g019310.2J	AT4G28590	Encodes a dual-targeted nuclear/plastidial phytochrome signaling component required for PEP assembly
BolC08g019040.2J	AT4G28080	Reduced chloroplast coverage 2(REC2)
BolC08g019010.2J	AT4G28020	tRNA-thr(GGU) m(6)t(6)A37 methyltransferase
