

Supplementary Data Fig. S4. Interaction verification between S1RLK55 and S1PHR3.

Supplementary Data Fig. S4 Interaction verification between S1RLK55 and S1PHR3. (a) Yeast-two-hybrid assay was used to detect the interaction between S1RLK55 and S1PHR3 (Solyc09g072830). SD/-H/-L/-T and SD/-A/-H/-L/-T medium were supplemented with 5 mM 3-AT. (b) Luciferase complementation imaging assays (LCI) were used to detect the interaction between S1RLK55 and S1PHR3. SCaBP8 interaction with SOS2 was used as a positive control.
