

Fig S3. Information related to miR860 and its target genes. **(A)** miR860 target gene structure analysis and target location prediction. **(B)** Chromosomal localization of pre-miR860 and its target genes; **(C)** Lanes 1, 2, 3, and 4: miR860 precursor sequence line fragments obtained from the background genes of the maintenance line (Y231-330) and the sterility line (Tyms), respectively; **(D)** prediction of the secondary structure of the miR860 precursor; **(E)** analysis of the base conservation of the miR860 mature sequences;
